

Microwavable HDPE Paperboard

Visstun's Microwavable paperboard products deliver all the vital performance characteristics of a microwavable plastic cup in a paperboard substrate which provides a more sustainable alternative to microwave plastic.

Produced using up to 35% Post Consumer Fiber, coated paper cold cup-stock provides purity and cleanliness that is unmatched in the industry. Cup Sidewall is coated in high density polyethylene (HDPE) and cup bottom stock is coated in low-density polyethylene (LDPE), our HDPE/LDPE blend of microwavable paperboard offers thermal stability in the microwave. When converted to a cup, it's durable enough to take foods from the shelf into the microwave in a single, easy-to-use container.

Certifications

Manufacturing

- ISO 9001:2008

Forestry and Procurement

- SFI Standards for Land Management and Wood Procurement (PEFC Endorsed)

Chain of Custody

- SFI Chain of Custody Certified
- PEFC Chain of Custody Certified
- FSC Chain of Custody Certified

Environmental and Safety

- U.S. California Proposition 65 Compliant
- CONEG Model Heavy Metal and EC/94/62 Article II Compliant
- ASTM F 963-95 Toy Safety, EN 71-3 European Toy Safety Compliant
- Elemental Chlorine Free (ECF) Bleached Fiber
- RoHS Compliant

Classifications

- Product Type - Solid Bleached Sulfate, SBS Paperboard, GZ

Caliper

- 0.018 inches
