

Microwavable Paperboard

Visstun's Microwavable paperboard products deliver all the vital performance characteristics of a microwavable plastic cup in a paperboard substrate.

Coated in polypropylene (PP) instead of low-density polyethylene (LDPE), our microwavable paperboard offers thermal stability in the microwave. When converted to a cup, it's durable enough to take foods from the shelf into the microwave in a single, easy-to-use container.

Certifications

Manufacturing

- ISO 9001:2008

Forestry and Procurement

- SFI Standards for Land Management and Wood Procurement (PEFC Endorsed)

Chain of Custody

- SFI Chain of Custody Certified: BV-SFICOC-US08000163
- PEFC Chain of Custody Certification: Specific by Application

Food Contact

- USFDA 21 CFR §176.170 — Contact with Aqueous & Fatty Foods (without restriction)
- USFDA 21 CFR §176.180 — Components of Paper and Paperboard in contact with Dry Food (without restriction)
- Acceptable for use with Kosher foods

Environmental and Safety

- U.S. California Proposition 65 Compliant
- CONEG Model Heavy Metal and EC/94/62 Article II Compliant
- ASTM F 963-95 Toy Safety, EN 71-3 European Toy Safety Compliant
- Elemental Chlorine Free (ECF) Bleached Fiber
- RoHS Compliant

Classifications

- Product Type - Solid Bleached Sulfate, SBS Paperboard, GZ

Caliper

- 0.018 inches T-411
