

P1S - LDPE Coated 1-Side, Paper Cup Stock

This paperboard offers poly coating on 1 side and a matte finish. This is commonly referred to as “Paper Hot Cup”. In addition to being great for all types of coffee & other hot beverages, wet & dry food packaging, Oatmeal, and serving cups of all kinds, this material can also be used in various microwave applications. For all uses, extensive user testing is always recommended.

Produced using up to 35% Post Consumer Fiber, coated paper hot cup-stock provides purity and cleanliness that is unmatched in the industry. Our natural wood fiber is a renewable resource that can be easily recycled and comes with either FSC or SFI chain-of-custody certification ensuring the fiber used was harvested from sustainable, well-managed forests.

Certifications

Manufacturing

- ISO 9001:2008 certification number QSR-115 & QSR-249

Fiber Procurement and Chain-of-Custody

- FSC chain-of custody and controlled wood standards: SW-COC-001498 & BV-COC-007380.
- SFI fiber sourcing, chain-of-custody, and product labeling certification NSF-SFICOC-C0035688 and BV-SFICOC-US003784-1.

Food Contact

- USFDA 21 CFR §176.170 — Contact with Aqueous & Fatty Foods
- USFDA 21 CFR §176.180 — Contact with dry food & food types III, IV-A, V, VII-A, VIII and IX
- USFDA 21 CFR §176.260 – use of reclaimed fiber from manufacturer process
