Las Vegas, NV 89120

Subject: FDA Food Contact Compliance

Product Name: PP Litho and PP Enhanced Litho Grade

When used unmodified and processed in accordance with good manufacturing practices for food contact applications, all materials will comply with the U.S. Food and Drug Administration's food additive regulation at 21 CFR 177.1520(c) 3.2a, products may be used to produce articles or components of articles used in contact with food for all food types described in Table 1 and Conditions of Use B-H described in Table 2 of US FDAs regulation at 21 CFR sub sect. 176.170(c) The preceding statement refers to regulatory requirements only, not to the products' physical utility. The uses cited above are subject to good manufacturing practices and any limitations which are part of the regulations. It is the responsibility of the article producer or food packager to determine that the article is suitable for its intended use. The regulations should be consulted for complete details.

These statements do not cover the user:

- Modification of our product by any addition of any other product to it,
- Modification of our product resulting from processing of the product, or
- Inadequate use and/or storage of our product or the finished articles by the end user.

The above information is presented in good faith based on available product information. Each user bears full responsibility for making its own determination as to the suitability of each material, product, recommendation or advice set forth by Primex Plastics. Each user must identify and perform all tests and analyses necessary to assure that its finished parts incorporating Primex Plastics materials or product will be safe and suitable for use under end-use conditions. Nothing in this or any other document, nor any oral recommendation or advice, shall be deemed to alter, vary, supersede, or waive any provision of Primex Plastics Standard Condition of Sale or this Disclaimer, unless any such modification is specifically agreed to in writing signed by Primex Plastics. No statement contained herein concerning a possible or suggested use of any material, product or design is intended, or should be construed, to grant any license under any patent or other intellectual property right of Primex Plastics or any of its subsidiaries or affiliates covering such use or design, or as a recommendation for the use of such material, product or design in the infringement of any patent or other intellectual property right.
